

VIPkit

Portable, Always-Available Communications

Never again be cut off from rest of the world.

During emergencies, on the battlefield, or in remote and rugged places where wireless and terrestrial phone service is nonexistent, VIPkit provides the communications that can mean the difference between life and death.

Convenient Global Access

A self-powering, carry-on-size kit that provides phone, email, and Internet access, VIPkit offers a fully integrated solution where there is no power, land or cell phone service, or broadband access.

Rugged, easy-to-use and rapidly deployable, VIPkit ensures communications needs are met, even where no local infrastructure exists. Leveraging Inmarsat's Broadband Global Area Network (BGAN) service, VIPkit offers ubiquitous, always-on coverage, making your operations staff as productive and effective in the field as they are back in the office.

**Global
Coverage
through
BGAN**
